(A) From The Executive Director's Desk....

The entire year was spent to re-orient the Organization and its activities. Community Institution Building like Farmers' club, Farmer Producers' Organization crystallized and took shape. The Organization focused on Environment, Water Conservation, Plantation and Social mobilization and shaping the programmes with firm roots within the community.

All the staff members of the organization together made efforts and are involved in medium to long term projects like Wadi, Micro Watershed, Tasar Host Tree Plantation, Millet Mission and Agriculture Production Cluster in Tribal dominated Nine blocks of Keonjhar, Mayurbhanj, Dhenkanal, Jajpur, Anugul and Sundargarh districts of Odisha.

The Farmer Producer Groups and members have started earning handsome income from farm based activities and are set to double their income with sustainability.

The advisors and trustees of the organization provided their constant support and guidance in forging alliance and cooperation with like-minded organizations, government and institutions. The staff members made concerted and serious efforts to work with the ultra-poor.

The entire efforts of the organization give a sustainable growth to the ecosystem through water conservation, natural farming, organic farming, regenerative agriculture and plantation activities.

Thanking you.

(Ranjan Kumar Mohapatra)

(B) SHRISTI at a glance...

SHRISTI (Society for Harmonious Renaissance of Ideas through Simple Technological Initiatives) is a Civil Society organization working in Odisha for over 20 years, focusing on holistic rural development by forming sustainable and self-reliant community institutions. We do this through well-planned and Comprehensive programmes in livelihood, community mobilization, integrated natural resource management, integrated watershed development, Plantation & Skill Development.

Our overall goal is the empowerment of women from poor and marginalized communities, leading to improvement in their lives and livelihoods.

(1) Mission:

To provide hand holding support towards establishment of community organization by enhancing their capabilities for resolving their problems collectively through awareness and training in the field of Agriculture, Natural Resource Management, Credit and income generation activities and Liaison to make them economically stable encouraging thrift, so that they develop approaches for improving their life and livelihood.

(2) Vision:

Aspiring for a society free from starvation and power by improving life and livelihood of the poor and disadvantaged communities is the vision of SHRISTI.

(3) Approach:

- SHRISTI has continued its effort to uplift the quality of life of rural poor through implementing many need based development projects focused on improved agriculture, sustainable natural resource, income generation, livelihood and self-reliant community institutions.
- SHRISTI creates a conducive platform for socially inspired and well educated people to work with the villagers in order to enhance the socio-economic development of poor.
- SHRISTI continued its effort in partnership with the Government (District Rural Development Agency, Agriculture Department, Horticulture department, District Mineral Foundation), NABARD and non-government domestic & international development organizations

(4) Area of Operation:

SHRISTI has organized its grassroots operations into 6 rural districts of Odisha. Each district has smaller teams of professionals dedicated to it who are supported by SHRISTI's core circle at all levels.

In the Financial Year 2021-22, SHRISTI directly reached out 18522 families through 12 Projects across 9 blocks in 6 districts, covering more than 420 villages in 61 Gram Panchayats. 12.3 Cr. is the year end leverage of SHRISTI through the Community Institutions from concerned Banks and line departments (through the projects/programs)..

(5) Districts & Blocks Covered:

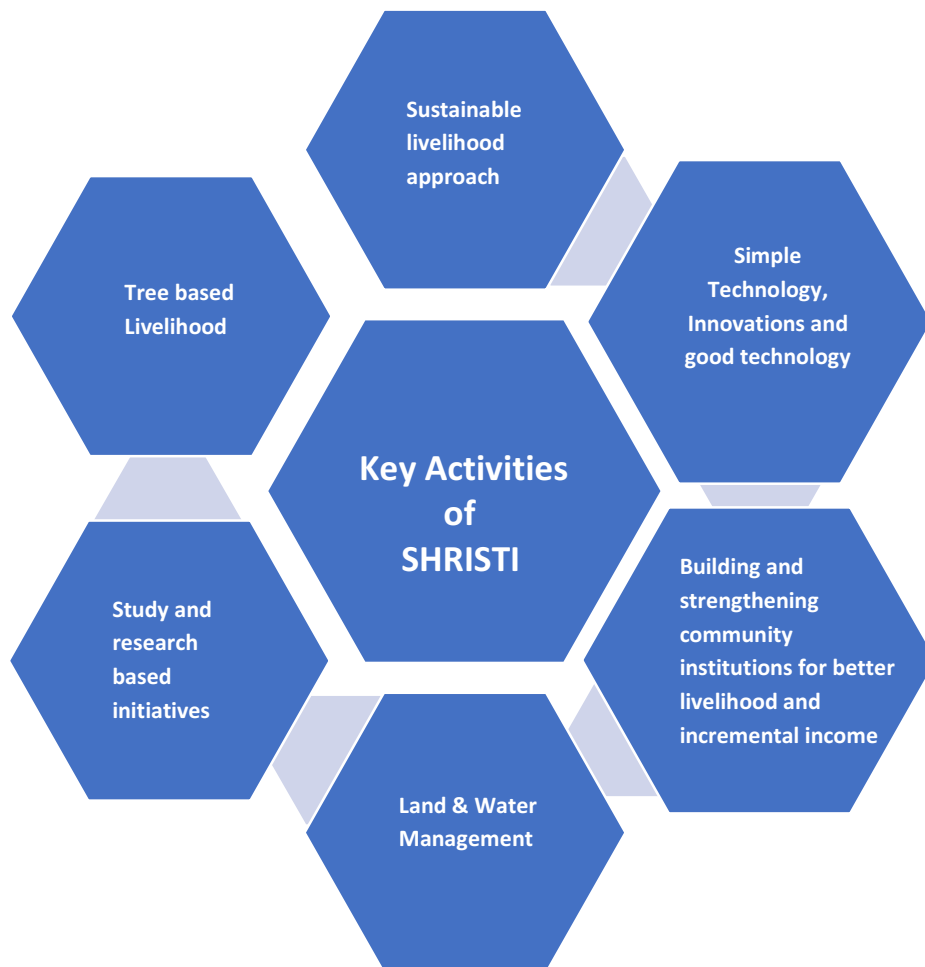

Keonjhar
Mayurbhanj
Dhenkanal
Anugul
Sundargarh
Jajpur

(6) Key Activities:

Our key activities are aligned with the sustainable development goals (SDG) & Millennium Development Goals (MDG) also known as the global goals, to action to end poverty, protect the planet, and ensure that by 2030 all people enjoy peace and prosperity.

Through each project SHRISTI undertakes various goals in an integrated manner. We recognize that action in one area will affect outcomes in others, and that development must balance social, economic and environmental sustainability. SHRISTI have committed to prioritize progress for those who're furthest behind. These are designed to end poverty, hunger, and discrimination against women and girls. The creativity, knowhow, technology and financial resources from all of society are necessary to achieve the SDG & MDG in every context.

To improve the life and livelihood of poor and disadvantages community of Odisha

(D) LIVELIHOOD INTERVENTION

(1) WADI

In the tribal & upland dominated area of Keonjhar, Dhenkanal & Maurbhanj for the sustainable livelihood approach we are going for plantation based livelihood programs. Initially we are finalizing the plantation field with village level discussion then we prepared the Detail Project Report and share with community for its planning approach to final the implementation work is. The Promotion of sustainable livelihood opportunities for participating tribal communities through remunerative self-employment through establishing WADI (small orchard locally called BADI) model. Projects are ongoing with the support of NABARD, District Mineral foundation (DMF), MGNREGA of Horticulture Department, DCCD Cochin.

Specific objectives:

- Effective utilization of available land, water and manpower resources of selected tribal families through participatory approach.
- Implementation of environmentally friendly income generating activities.
- Development through people's organizations.
- Participation by women in development process and their empowerment.
- Demonstrative merits of a WADI model for replicating the same by various developmental agencies and also adoption of technology by the other farmers in the project area.

Specific interventions will be focused on:

- WADI project will ensure that the socio economic status of people of the area develops in the following ways:
- Strengthening local community institutions
- Establishment of orchard of the selected fruit crops as a foundation economic activity.
- Utilization of border of the orchard for planting of short term crop and economical species to meet the annual expenditure.

- Adoption of in situ soil conservation measures to arrest further degradation of soil and shaping of the land to make it suitable for establishment of orchard.
- increasing the soil health status through organic approach & soil conservation measures
- Development of water resources individually or on community basis to provide protective irrigation for fruit plants. The emphasis is on dry land horticulture, providing irrigation during the critical period by adopting the time-tested water saving pitcher irrigation technique.
- Adoption of improved farming techniques, by capacity building of the participating farmers through technology interventions, training, and exposure visits etc. to improve the crop productivity, production and quality of the produce.
- Introducing income generation programmers for women groups and try to enhance the food and nutrition security of the house hold level.

Present Status of the Project:

Financial Year	Area (acre)	No of Plants Planted	VDC (no)
2018-19	97.4	6623	1
2019-20	200	13600	4
2020-21	162.6	11056	4
Total	460	31279	9

(2) Tasar Host Tree Plantation:

In this year the tasar host tree plantation project is initiated in 7 GP of Harichandanpur Block with the financial support of District Mineral Foundation (DMF) Keonjhar, MGNREGA with the technical support of sericulture Department.

The objectives of this Project will be as follows:

- The core objective behind promotion of Tasar host plant raising programme is to develop 300 hectare of Arjuna and Asan plantation on revenue waste land in mining affected villages of Harichandanpur block of Keonjhar District to provide livelihood earning to 300 families from tasar silk worm rearing.
- This project will ensure the enhancement of socio economic status of the people in the following ways:
- By providing the usufruct right on the tasar host plantation raised under the project @ 1 ha per family so that the families can use the plants to take up the silk worm rearing to increase their earning.
- Improve the soil & moisture health status through organic approach & soil conservation measures.
- Ensuring irrigation through water resources development for life saving irrigation of the plants and taking up intercropping where ever possible.
- To promote sustainable, participatory livelihood development in the mining affected areas of Keonjhar through plantation of Tasar host trees
- To create dependable plantation asset base for Tasar rearer in a cluster approach in the Tasar growing areas of the district
- To improve the standard of living of beneficiaries' families by enhancing
- access to natural resources leading to reduction in poverty
- To increase plantation cover in the district by utilizing revenue wasteland
- To rejuvenate the local natural environment in an integrated and comprehensive manner
- To build and strengthen local institutions which would enable the communities to be partners in programme execution and bringing improvement in their social and economic status

The TVS are actually "owns" the project and is responsible for the planning, implementation, monitoring and maintenance of the project with guidance from SHRISTI. Assistant Director Sericulture, Keonjhar is the conveyor of the project. The material and HR component of the project is funded by DMF whereas the entire labor component was converged from MGNREGS.

Present Status of the Project:

Sl. no	FY	GP	Village	Name of the patch	Area in Ha	No of Beneficiary	No of Plants

Total		7	7	14	300	300	555600

Implementation approach- Mention briefly the process followed for taking up such plantation

Waste land identification by RI & Amin

Waste land identification by RI & Amin

Arrange a Palli Sabha with the villagers

Identify who have lands or beneficiaries

Selection of Tasar Sathi & Watch Guard

Formation of Tasar Vikash Samiti by taking selective beneficiaries

Land demarking for starting the plantation

Lay out for plantation

Pit digging & plantation

(3) Odisha Millet Mission:

This Special program for promotion of Millet in Tribal area of Keonjhar, Odisha is ongoing with the support of District Mineral foundation, Agriculture department & WASSAN.

The objectives of this Project will be as follows:

- Increasing house hold consumption of millets by about 25% to enhance household nutrition security and to create demand for millet.
- Promoting Millet Processing enterprises at panchayat and Block level to ease processing at households and for value added markets.
- Improving productivity of Millet crop systems and make them profitable.
- Developing Millets Enterprises and establishing market linkage to rural/urban markets with focus on women entrepreneurs.

This is projected at 56 villages of Champua Block. This is the third year of our implementation in this period we are addressing the following progress.

- 795 no of Farmer raised millets in 388.48 hectare of land. 670 Qtl of millets were produced.
- Around 65 Community nurseries were developed.
- Trainings organized by team for creating of awareness & motivation.
- Arranged awareness Ratha for mobile awareness
- Street play on millet was arranged

Present Status of the Project:

Financial Year	Area (Hectare)	No of HH	No of villages covered
2019-2020	10.8	53	6
2020-2021	126.68	320	28
2021-22	251	422	22
Total	388.48	795	56

(4) Agriculture Production Cluster (APC)

- Promotion of Agriculture Production Clusters in Tribal regions of Odisha is a collaborative initiative by Department of Agriculture and Farmers' Empowerment & Panchayati Raj & Drinking Water Department, Govt. Of Odisha. This project is operating the joint partnership with BRLF & Selected NGOS in 75 blocks of 14 highland districts. SHRISTI being a partner has been implementing the initiatives at 5 tribal & upland dominated Blocks of Keonjhar, Mayurbhanj, Dhenkanal, Anugul, Chompua & Sundargarh.

Outreach of APC					
Name of the State	Name of the District	Name of the Block	No. of Gram Panchayat	No. of the Villages	Households Coverage
Odisha	Kendujhar	Harichandanpur	9	32	3009
Odisha	Mayurbhanj	Khunta	8	38	3000
Odisha	Dhenkanal	Kankadahada	10	25	3012
Odisha	Anugul	Pallahara	9	43	2476
Odisha	Sundargarh	Bisra	5	28	2047
Odisha	Kendujhar	Champua	8	34	2462
Total	5 Districts	6 Block	49	200 Village	16006HH

Objective of the APC

- To trigger growth in farm sector with the objective of sustainably doubling the income of 1 Lakh small and marginal farmers. (16006 families in 6 blocks of 5 District).
- To establish the model of Agriculture Production Cluster (APC) in 3 backward blocks as an effective method to organize production system and services of markets

Progress of the Project

- During this year we are successfully formed & linked the 147 Producer Group with OLM .For successful operation of PG programme the Udyagmitras were selected by written examination & some places finalised by PG members in meeting process. We are finalized the winner crop after conducted a market study & taking priority to

Farmers practice also finalized its POP & PG wise Business plan the same was oriented to all members. The PG wise DPR & Assessment report were done with the participation of PG members and was submitted to OLM for release of IB & CB fund. In this project we focused in PG formation, Vegetable cultivation, Plantation, NPM, Irrigation, Livestock, Infrastructure development & farm mechanization. The yearly progress is as below.

Activity	Plan 2021-22	Achievement 2021-22	Remarks
PG promotion	147 (16006 HH)	147 (16006 HH)	147 PG formed and agriculture activity taken. Village mapped with OLM, Mission Shakti & ORMAS.
Agriculture	9876 HHs 3170 Ac	8796 HHs 2139.7 Ac	1408 HHs 619.1 Ac
Fruit tree plantation	800 HHs 550 Ac	91 HHs 120 Ac	192HH 248AC.
NPM	1800 HHs 585 Ac	132 HHs 29 Ac	365HH 122 Ac
Irrigation Potential creation	903 Ac	6 Ac	642 Acre ongoing
Livestock	2500 HHs	1510 HHs	Vaccination & deworming of goat & BYP
Farm mechanization access	3200 HHs	1875 HHs	Machineries & equipments installed

(5) Case Study-TUNKIBURU PRODUCER GROUP

Rangamatia & Bahaldavillage two villages of Badapathara Gram Panchayat , Khunta block of Mayurbhanj District. Rangamatia & Bahalda are two tribal villages, in Rangamatia village total house hold 92 out of which 52 HH are Santal and 40 HH are Bhumija, in Bahalda 97 HH are Bhumija and 3 HH are Santal. Rangamatia & Bahalda villages are situated on the base of The Similipal forest, 15 Km form Block office (Khunta)and 43 Km District head quarter(Baripada). These two villages are full of natural resource. A very famous waterfall named “Tunki Buru” waterfall is only 3 Km from the village. The village is densely covered with natural resources along with reserve forest, dry nala. Paddy cultivation is the foremost livelihood option for them, secondly they depends upon NTFP like sal leaf, mahua, honey, firewood etc &some HH's depend upon livestock.

“SHRISTI” a state level NGO stated work through Agriculture Production Cluster in the year 2019 and formed a producer group named “Tunkiburu Producer group” with 70 women member. In the year 2019 Kharif season 19 members of the PG started vegetable cultivation with 7.5 Acres of land (Brinjal, Ridge gourd & Bitter gourd) and earned an average income of Rs. 25000/-. After that the confidence was built among the PG members and gradually the number of farmer and area increased. In the year 2020-21 SHRISTI introduced single line trellis with Bitter gourd and Ridge gourd as winner crop in synchronized way. Total 28 farmers are involved with 22 acres of land and earned an average of Rs. 80000/-. This year PG members were focused on synchronized planning & marketing. This year 71 members were involved in the Kharif season and cultivated 60 acres of land and earned an average of Rs. 90000/-.

Year wise Crop Details

Year	Village	Crop	No of HH	Area	Crop	No of HH	Area	Total Area (Acre)	Net HH
2019-20	Rangamatia	Brinjal	7	2				2	7
	Bahalda	Ridge gourd	12	4	Bitter gourd	4	1.5	5.5	12
2020-21	Rangamatia	Bitter gourd	11	4	Ridge gourd	11	5	9	11
	Bahalda	Bitter gourd	17	6	Ridge gourd	17	7		17
2021-22	Rangamatia	Bitter gourd	24	7	Ridge gourd	24	15	22	24
	Bahalda	Bitter gourd	47	20	Ridge gourd	30	10	36	47
		Brinjal		9	6				

This year many buyers from Balasore, Baripada and Bhadrak were coming to these villages for purchasing the produces. The PG members were selling their produces at village level after bargaining with vendors and were accepting the highest offer and also sold in Baripada & Udala mandi through Similipal Farmers producer Company. Now these villages have created their own identification for bitter gourd, Ridge gourd & community marketing system. Now various Government departments are supporting the PG member to enhance their income. ITDA supporting Seed, Fertilizer and pesticide, 30 vegetable crates supported by ATMA, 6 Dug well and 1 farm pond from MGNREGA and 31 farmers benefited through RKVY trellis from Horticulture department. Also ITDA department committed for 1 power weeder and 3 power sprayers and 2 Deep Bore well from OMBADC through Horticulture department.

Now 4 PG members purchased new motorcycle, 1 Tractor, 1 power tiller, 5 pump sets are in the PG. 26 PG members using smart phone and 9 members children are studying in private school. Due to lower price of vegetables better marketing and crop diversification is a challenge and round the year irrigation for all is also a big challenge.

(6) Women Collective Anchored Integrated Second Chance Education and Vocational Learning Programme

This is our 2nd Year engagement in this project and it has been implemented at 2 Blocks of Dhenkanal District with the Support of UNWOEN and PRADAN.

Objective:

- Economic Empowerment of women
- SHG, VO, CLF & Federation will be at centre for implementing and carry forward the development process.
- Create 500 women farmers and 50 women entrepreneurs at CLF level.
- Incremental income of household up to 50000 per annum.
- Enhance income Rs 800/- from 1 decimal of land in commercial vegetable crop.
- Ensure income Rs 20000/- from goat farming with a ideal herd size of 8-10.
- Develop/create Village cadre or Expert

Activities Undertaken:

- 3 times vegetable Cultivation and application of modern technology method
- Linkages with Line Dpt. for assistance and support and subsidies on farm machinaries and goat health services.
- Market linkages of vegetable and goat selling
- Planning exercise of Khariff, Rabi & summer by the local CRP
- Maintaining crop rotation and pop.
- Organizing village level goat health camp with the help of Veterinary Department.
- Regular de-worming & Vaccination ensure by local institution.

District	Block	No.of village	Institution (CLF)	Total Planned	Agriculture involvement	Goat rearer
Dhenkanal	Kankadahad	7	7	500HH	420HH	122HH
	Kamakhya	3	2			

(7) Sustainable Livelihood Program for PVTG's

This is the 3rd year of this project, this is designed with the ultra poor people are PVTG's of Nagada location of Jajpur district with the partnership with Trickle up where SHRISTI is engaged in implementing promotion of Sustainable Livelihood – Agriculture and Natural Resource Management, good Governance and People's Participation for vulnerable communities, among the PVTG community whereas we committed for facilitating behavior change process and field team for implementing programme for 135 HHs in Nagada (Block- Sukinda, District-Jajpur, State-Odisha). The objective of this partnership is to increase focus on the issues of ultra-poverty (includes PVTGs) and inclusion of the families living under extreme poverty in the social, financial domain and develop a replicable strategy across NRLM

Activity on going:

- SHRISTI setup a dedicated team for this particular intervention in the village and set up a camp office in the community to understand and build relations in the community
- On going the liasoning process with District & Block administration for Convergence with all Government Departments towards inclusive development of the community.
- House hold level Survey work completed in all hamlet by the help of local to identify the problem & understands the style of leaving.
- Adopting the community Institution by properly validation & regularized the schedule meeting at SHG as well as Hamlet level.
- Promoted Nutrition garden of the 6 hamlets in three villages with a objective to consumption purpose with the convergence of Horticulture department by providing plant support.
- We demonstrated some Income generation model on vegetable cultivation.
- Looking to their practices we distributed different varieties of millet seeds among beneficiaries to add nutrition value, accordingly POP will be shared to ensure good productivity.
- We arranged food festival in three hamlets for cooking process of "Dalma" by using Papaya in day to day food habit.
- To address the goat mortality ratio we ensure the Pneumonia vaccine and Ranikheta vaccine by arranging goat health camp with the convergence with vet nary department.
- COVID-19 awareness has done with the SHG and youth villagers by demonstrating the process of hand washing & social distancing and also provides mask support to the members.

We helped in free food cooking, re-immunization money to the Ration card, and Agri implement distribution to 5 hamlets.

(8) Rapid Community Response to COVID-19 (RCRC)

RCRC, India is a coalition of leading Civil Society Organizations through the length and breadth of the country. SHRISTI is one of those CSOs who carried out the survey of reverse migrants and helped them get their entitlements. The RCRC Centre for Monitoring Rural India carried out a household survey to understand the livelihood status, condition of migrants, and the efficacy of the government reach in the form of entitlements.

The survey analyzed the status of food security, hunger, and indebtedness. The impact on all farm livelihood options (production and sale) was studied. There was an inquiry into the mental wellbeing and access to health services. The survey is aimed at investigating the impact of the pandemic on a regular monthly basis.

Overall focus:

- Build community capabilities to address the immediate and medium-term effects of COVID-19 on health, well-being and livelihoods security
- Demonstrate a concerted, convergent planning approach to address the issues related to mass home-coming of migrant workers

Status Of Relief Distribution			
Sl	Block	Village	Families
1	Harichandanpur	36	608
2	Kankadahad & Kamakhyanagar	30	480
3	Champua & Jhumpura	42	267
	Total	108	1355

The Humanitarian Aid project started by APPI and SHRISTI from the second week of June 2021 has been successfully completed with the active involvement, support and participation of representatives of Gram Panchayats, Women SHG (Self Help Group) and PG (Producers Group) leaders, BDO (Block Development officer) and CRPs/ERPs/GSPs (Community Resource Persons, External Resource persons, Goat Service Providers) and staff. All relief distribution data has been captured in the ODK developed by APPI.

Upon completion or full coverage of 1205 vulnerable families as per the sanction, additionally 150 ultra-poor families have been supported with dry ration, utilizing the available budget under the budget head of transport, packing and CRPs food expenses. All 1355 vulnerable tribal families are the most deserving families.

Our Approach against Covid-19:

PLAN

- To mobilise CRPs to train SHGs and PGs
- Orientation by experienced Project staff regarding social distancing, hand washing

AWARENESS

- The members of SHGs, PGs spread awareness
- Use of interactive mediums

RELIEF PROCUREMENT

- Procurement of relief items amidst shortages
- Online transactions to suppliers to ensure on time supply

RELIEF DISTRIBUTION

- Masks, soap bars, ration were distributed
- Social distancing norms adhered to

RESUME MNREGA

- MNREGA work was resumed in the blocks with proper measures in place
- Our personnel were instrumental in this step

Data of our work in Second wave of Covid-19:

- An excess of 150 families were served apart from 1355 vulnerable families.
- The amount saved from transport, packing and food was used to accommodate the expenses for these 150 extra vulnerable families helped.
- The procurement of items below budgeted amount through effective negotiations helped improve the reach of the relief.

(9) Farmer Producer Organisations- Community Centric Institutions

Farmer producer organisations (FPOs) are agricultural cooperatives that are emerging as a practical approach towards empowering a great number of smallholder farmers and ensuring their prosperity. Several of these FPOs have been successful in making agriculture profitable for thousands of farmers.

SHRISTI has been promoting Farmers Producer Organisations (FPOs) such as Producer Companies (PCs) as village Institutions that cater to market led livelihood interventions. The Producer companies increase the competitiveness of the producer members through

- Right forward and backward linkages
- Reduce the cost of production through bulk procurement
- Ensure production management services and market the products through collective procurement
- Provide knowledge and technology transfer.

Sl No	Name of FPCs	Registration No	District	Total Share holders	Turnover (in Lakh)
